

Holy woman

text&music: Dănu Extrem © SUIA

Many nights i have spent
Embracing an exiting girl
I always gave the best i could
Holding on for a brand new world
Hundred times i thought thats it
And finally my heart will find home
Nundred times it faded away
Loneyness was what remained...

Often i sayed: let's spend the night
Sometimes even: let's meet again

But when i saw you standing there
Electricity was in the air
Captured alive by your stile
I knew i could never pass you by
Many woman i had known
And all of them had of theyr own
Women are holy that's my faith
But you where just mutch more than this
You where my whore my holy goddess
You where my slave my mighty master...

Offer i've sayed: let's spend the night
Sometimes even: let's meet again
Seldom i'd sayed: i love you trou
Now i just want to be with you

As you were standing in the crowd
The band was good the music loud
I felt your eyes were fixed on me
It seemed i was all that you could see
Many men you had known
And all of them had of theyr own
Men are men that's a fact
I was just so mutch more than that

Often you sayed: let's spend the night
Sometimes even: let's meet again
Seldom you'd sayed: you love him trou
Now you just mated to be with me

Only be with me - felt the same for you

Offer i've sayed: let's spend the night
Sometimes even: let's meet again
Seldom i'd sayed: i love you trou
Now i just want to be with you
