

WARUM? (es plätzli a der sunne) *engl. translation*

Dänu Extrem /Dänu Extrem

Why is it, that every day
I have to stand up and go to work?
Why do I have to get on the tram
Where there is no place for me?
Why is my boss getting mad at me
Because my watch is running slow?
Why do I have to take all this?
I don't know, I really don't know, but...

I want a place in the sunshine
A little luck for me
I want a place there in the sunshine
I little piece of luck for me...

Why do you have to get up early
And out of your cosy bed?
Why do you have to go
This long way, to school with your bike?
Why do you have to learn things
You're not interested in?
Why do you have to do all this?
You don't know, you really don't know, but...

You want a place in the sunshine
A little luck for you
you want a place there in the sunshine
I little piece of luck for you...

Why does he always have to be there
When we make a little demonstration?
Why does he has to throw at us
This teargas and these rubberbullets?
Why does he have to be
Like a big grey wall to us?
He don't know, he really don't know, but...

He wants a place in the sunshine
A little luck for him
he wants a place there in the sunshine
I little piece of luck for him...

Why does she have to look at herself
Every morning in the mirror?
Why is she putting paint on her face
Until you can't recognize her
Why does she have to look like 20
When she's almost 40?
She don't know, she really don't know, but...

She wants a place in the sunshine
A little luck for her
she wants a place there in the sunshine
I little piece of luck for her...

That's what we all want...

we want a place in the sunshine
A little luck for us
we wants a place there in the sunshine
I little piece of luck for us...
